Papers of the Hippisley Family of Ston Easton

Catalogue Ref. DD/HI

Creator(s):

Hippisley family of Ston Easton, Somerset

[Note]

An extensive genealogical history of the main and many subordinate branches of the family was published in 1952 (The Hippisley Family, ed. I. Fitzroy Jones), happily compiled before the Ston Easton registers, the source for much of the information, were lost. The page numbers of this book have been used in the present catalogue as a means of identifying and distinguishing the various generations and branches involved and, in particular, the many Johns. It has been possible to add a few marginal additions and corrections to the Somerset Record Office copy of the work, but its general accuracy has not been faulted.
