

INTRODUCTION

Henry Jacob Fell of Tiffin, Ohio, was 22 years old when he joined Company B, 55th Ohio Volunteer Infantry, Union Army, on 30 April 1863. The following diary begins on the 14th of March, 1864. Although H.J.'s activities in the war prior this date are unknown, his regiment fought during Gen. Hooker's defeat at Chancellorville (27 April to 6 May, 1863) and probably in other battles. Verbal family history states that H.J. fought in the battle to take Lookout Mt. Tenn (23-24 November, 1963).

The diary opens at a camp in Lookout Valley where H.J. and Co. B are going through drills and dress parades while they await marching orders. These arrived 1 May, and H.J. was an active part of Gen. Sherman's attack on Atlanta. He describes the many battles—the cannonading, skirmishes, the taking of the towns of Kingston and Cassville and his near capture by the Confederate Army (the "Rebs"). He continued fighting until mid-July when he was taken ill and was put in a front-line hospital. He remained there until the end of July (28 July, 1864 -" there is a great fire in Atlanta"), when he moved to a hospital in Chattanooga and then, in October, to a hospital in Nashville. Disease and other illnesses were rampant during the Civil War, causing approximately 70% of the casualties.

In November 1864, H.J. had a furlough to his home in Tiffin, after which he returned to the hospital in Nashville. By the 4th of December, he was out of the hospital and ordered to march to the rear of the State House, Nashville. During the 15th and 16th of December, he took part in the successful defense of Nashville against Gen. Hood's attack. H.J. then took a train to Chattanooga and marched toward Dalton, Ga. for a several day battle at Tunnel Hill (Feb, 1865), during which his Company was attacked from the rear by the Reb Mounted Bushwhackers. After this battle, H.J. went to Nashville where he took a steamer on the Cumberland and Ohio Rivers to Parkersburg, W.V. The river was flooded and rough; the boat ran aground in a corn field and got tangled in the trees. From Parkersburg, he took a train to the vicinity of Washington, D.C., went by boat to Wilmington, N.C., and took a train to Goldsboro, N.C. In April 1865, he and his company joined the fight at Raleigh, N.C.

On 30 April 1865, H.J. and his Company started marching north, arriving in Washington, D.C. for a review parade 29 May. From there he went to a Camp in Ohio, where he was discharged 16 June 1865.

In reading H.J.'s diary, one obtains the sense of misery, hardship, horror and boredom of the war. H.J. writes briefly, yet descriptively, of the daily battles. "June 22nd, 1864. Our brigade started about 5 AM. Marched close to the edge of the field. Formed line of battle. Doubled the skirmish and charged across the field and woods. During the afternoon the enemy made a charge but was repelled with a heavy loss. Built breastworks and laid there till dark. Moved to the right of the second division and left of the 23rd. Laid in the woods over night. Cpl J.A. Jones was wounded." Somehow, during all of this fighting, H.J. was able to write his diary and keep it intact. Boredom

was obvious during periods between battles and in the hospital (“Nothing much of importance going on”).

We do not learn much about H.J.’s personal actions in the war- we don’t even know his rank. He writes, concerning the battles, about the actions of the Company or Regiment. We do know from his poems that he is sensitive and possibly homesick. He is loyal to the cause (“Death or the Union” in Song of the Chickamanga), although he may have had little enthusiasm for the killing (“News of John Morgan, The Rebel General being killed which seems to please most everyone.”). His personal feeling regarding the war may have been expressed in an earlier diary or in his many letters to his friends and relatives. Certainly there was an 1863 diary, as the 1864/65 diary opens as a continuum. H.J.’s perseverance in maintaining a diary and his meticulous lists of letters, sent and received, indicate that a 1863 diary was written. The addition of that diary and his letters would be a welcome contribution to this 1864/65 diary.

This diary was in the possession of Egbert H. Fell, who probably obtained it from his father Egbert E. Fell. Pictures were also in the E. H. F. collection. The transcription of the diary was initiated by Florence W. Fell (Lacey, Wash), wife of E.H.F., and was completed with assistance from her son, Jack W. Fell, his daughter Anne Elizabeth Fell and his wife R. Pamela Reid (Miami, Fla.). The diary was not always easy to read; some pages were entirely blurred and many words were hard to read and decipher. In many instances we left blanks or wrote what we saw, or thought we saw. As a result, some words seem meaningless. Also, we maintained, as much as possible, the original spelling (there=their) and wording. Some errors and omissions undoubtedly exist.

In addition to the above mentioned Fells, copies of this manuscript have been distributed to the following descendents of E. E. Fell: Thomas E Fell, Elizabeth F Fell, Catherine J. Fell (Olympia, Wash), Jane Fell Pintner (Tenafly, N.J.), Robert T. Fell (N.Y. City), Barbara Fell Gilmore (Grand Rapids, Mich). Location of other descendents of H.J. Fell are unknown to us.

We hope that in reading this diary, you learn more about the Civil War and H.J. Fell, without whose survival many of us wouldn’t be. This manuscript was prepared during Thanksgiving week; on that occasion in 1864, H.J. had “an extra dinner”.

Tender lines

I will not wish thee grandeur
I will not wish thee wealth
Only a contented mind
Peace, competence and health
For a friend to love thee dearly
and honest ones to chide
And faithful ones to cling to thee
Whatever maybe tide
Remember me when far away
When those around you they are gay
Remember me and sometimes spend
A thought
upon an absent friend
Bright be thy future wherever you thou roam
From thy heart each cloud be driven
May earth be to thee a sweet peaceful home
A brighter one award thee in heaven
Forget me not though you should roam
In other lands should find a home
Forget me not though you should stay
In other lands far, far away
Forget me not, forget me never
Till yonder sun shall set forever
Though you shall find another friend
Forget me not till time shall end.

Song of Oragon

When first I parted away from you
Through grief and sorrow and to trouble
I gave to you my parting hand
And wished you safe to Oragon.

Over hills and mountains we did stare

Over hills and valleys and waters clear
From a distant land to a wholesome soil
With milk and wine both corn and oil.

Ten thousand Indians graves we found
Walled up with rock all round and round
Which made us think some Christian race
When days of old t
qhey passed this place.

So I have moved to write to you
Since religion low and preaching too.
The wars are o'er and peace is done
We are with the troups of Oragon.

My love to you I cannot unfold
My love to you is like a ring of gold
Its round and wide and has no end
So is my love to you my friend.

(Written by H.J. Fell, March 1864)

Song

Some time ago I left my home
And left in peace and pleasure
And here I left a handsome girl
I thought she was a treasure.

She said she loved me and I guess she did
For often she so told me
But since a soldier I have been
I find that she has sold me.

Perhaps that she has sold me cheap
But some have been sold cheaper
And when I meet her in the street
I must be sure to greet her.

Yes greet her with a holy kiss

As the Good Book says in its teaching
And go and come with her beside
All to and from the meeting.

But Me thinks I know what she would say
Go away you ugly fellow
For since you are a soldier boy
Your face has grown so yellow

I wrote and wrote to her again
But Oh! not yet a letter
And here I find it is my luck
And by this I have learned better.

There's many a good boy in this war
And brave men there to lead them
And many a girl that loves the boy
That's fighting for there country or freedom

The wages are thirteen a month
And we'll manage how to spend it
And as the wages are so good
We feel quite independent.

If I should fall

It is of Susanah I speek you see I hold
Closely to my brest
Protection she shall find in me
With me be ever blessed

But all looks very dark and dreary
For I am far away
And can but drop a silent tear
When down to sleep I lay

If on the field I should fall
And y
ou could but be near
The last words you would hear me call
Would be a name most dear

If I should fall Oh do not weep
Remember that to me is given

The bright thought, as in death I sleep
That we will meet in heaven

The Christian Commission. The above is one of the best and most comfortable institutions that has been established by the Union people during this war. Friends at home can scarcely realize the real value of its good works which is so freely distributed through out the enemy's armies. Go to the front and you will find it an aid of the sick, wounded and dying soldiers. Go to the hospitals and you will find its good works there. And the most and best of all is that it can be found in almost every town between Chattahoochee and the Ohio Rivers by the sick and wounded soldiers that are moved to the Gen Hospitals.

On the 3rd. of August 1864 a large number of sick and wounded were moved from the General Field Hospital near the Chattahoochee River to Chattanooga (of which I was one of the number) At Kingston Ga. we were fed and treated with great respect by the Christian Community (for dinner). At night we were again received by the U.S.C.C. at Dalton where we were likewise treated. I never knew of a happier set of diseased soldiers in my life before. They all blessed and prayed for its continuance. And I really hope and trust that each member that is interested in that cause may continue in their good work and they will receive the soldiers blessing.

Song of the Chickamanga

I am sitting in our camp, Sister,

Beneath the shady trees.

Upon the rough and rugged banks of the Chickamanga

It is the day of rest with me

It being the Sabbath day for men

to rest their weary limbs.

Around in groups they lay.

I am looking at the River, Sister,

Tha

(t is running fast below

At those rough and foaming waves

As they toss too and fro.

Reminding me of many a one

Who to the war have gone.

But like those foaming waves have gone,

Never to return.

There has been sadness in our camp

Since the second day of May,

For many of our comrades brave fell on the field that day.
All fighting for the stars and stripes
Mid cannons deadly rattle
But now they sleep the sleep of dead
Upon the field of battle.

It fills my heart with sorrow, Sister
When I look around and see
So many missing from our ranks
That left there homes with me
----to defend their country and cause
and our union for to save
But death has claimed them from our ranks
We have laid them in their graves

Many are the hardships, Sister
We have to unterga (?)
But still we hand those hardships not
B
But on our way persue
Yes put down this rebellion
We will forward chierefully home
And it will be our motto now
Death or the Union

If I should never reach you Sister
My native home again
But on the field of Battle
Should be numbered with the slain
I hope you won't for me lament
Nor shed a tear for me
For I could not die for a better cause
Than to defend my country.
