COUNTY CORRESPONDENCE.

Communications from all over the County solicited.

Communications of general interest are solicited, but the paper will not be responsible for the opinions of its correspondents. Address all communications to THE RECORD, Pioche, Nevada.

BUNKERVILLE.

Madame Magdalena, said to be the longest-haired woman living, exhibited her wonderful tresses here, not long ago.

On Monday, the 30th of Jan., the lower department of our school did not convene, there being only six that came out for school, out of an enrollment of over fifty. The cause of so small an attendance, was a visit of the grippie, which also decreased the attendance of the higher department.

Instead of remaining extremely warm for this time of year, as it has been for a week or two previous to Febr. 1st, the weather has become extremely cold for this locality. A snow fell last night and the thermometer registers just above the freezing-point in the middle of the day. A strong wind blew almost incessantly, during the latter part of the week. C. S. Febr. 5th, 1899.

Newland Dots.

W. E. Barney is still "with us."

A. Millett visited Panaca last week.

Bert Coumerilh is attending school at piöhe.

Mr. Henry Rice has been suffering from an attack of the Grip.

Mr. James Wood of Clover Valley paid us a visit the first of last week.

Phil Lee was among the last weeks visitors, "Come again Phil, you are always welcome."

Capt. Jack Zilleg, from Stateline, spent a few days in the Valley, hunting ducks, last week.

Mr. Jos. Coumerilh returned home last week and has been quite ill, but is rapidly improving.

Wild cats and coyotes are getting very tame, a large "cat" was killed Tuesday night, less than 50 yards from Coumerilh's house.

Mrs. Henry Rice and baby returned home to Panaca, a week ago Wednesday, after a four weeks sojourn with her mother, Mrs. Dorrell.

DENNIS.

Mining Notes.

The Poorman shipped a carload of high grade ore today.

The Ophir "group of mines" at Stateline, was sold to Springer, a broker from Salt Lake. Clark Bros. owned a half interest. It is rumored that the price was 75,000 dollars.

Clark Bros. still owns most of the claims adjoining the Ophir group.

The railroad is pushing this way and when it runs through Lincoln county, there will be hundreds of splendid producers opened up, to say nothing of the stock interests it will help. Our cotton, fig, grape and other crops, in the southern part of the county, will also be strictly in it.

We met Col. Eisenmann of the Magnolia, at Cliff Saturday, on his way to Salt Lake and possibly New York City. The Col. is very much pleased with the outlook of the Magnolia, and says that they now have a good body of free milling ore in the shaft, as well as enough good shipping ore to pay all expenses of prospecting now going on. A reduction plant is almost assured for this, our third great bonanza of this district.

We visited the Poorman, Alps and Pacific Tunnel mines and were, after hearing some old crokers talk, very agreeably surprised to see the amount of first-class ore there was in sight, besides a large body of splendid milling ore. The outlook for Pioche, as we are lead to believe by the looks of the mines and what we know to be quietly going on, looking to their future development, is exceedingly bright. Parties are expected at almost any time now to put men to work.

Bristol District.

Work still continues on the Cave and Gypsy claims in the Bristol mining district, eight men being employed. An important strike was made in the Gypsy claim, and a fine body of ore was found in a cave that was broken into. It is a rich carbonate ore and as far as developed shows it to be of some magnitude. It has been drifted on in two directions and at present shows a width of 14 feet in ledge matter, all of which assays very high. In the past history of this claim, whenever a cave was struck similar to this, it generally yielded a great quantity of ore, and we hope to see the same results from this.

Johnny Frank has closed his saloon at DeLamar and arrived here Sunday morning.

Tooth Talk...

ARTIFICIAL TEETH.

My artificial plates are the most natural and perfect reproduction of the teeth Nature gives—in fit, action and appearance—that it is possible for expert skill and the finest mechanical equipment to make. They are constructed and adjusted—skillfully and knowingly—with consideration of the natural expression and contour of the face, so light, comfortable, and wearable that their presence in the mouth is forgotten.
